

Entry Level Certified Airframe & Powerplant Mechanic

Bend, Oregon

Are you passionate about aviation, building something with your hands or working on an exciting project for a dynamic, growing company? Epic Aircraft LLC is a manufacturer of high performance single-engine turboprop aircraft based in Bend, Oregon. We are seeking enthusiastic, hardworking candidates to join our fun and growing team. The soon-to-be-certified E1000 will be the fastest, highest performing, most affordable and comfortable, six-place single-engine turboprop in the world.

Position Description:

Responsibilities of the A&P will be to maintain, repair, and troubleshoot aircraft airframe and engine to ensure aircraft conformance with FAA regulations. Will troubleshoot and determine malfunctioning parts and recommend part changes or adjustments to aircraft specifications to improve performance. Will also document and maintain paperwork for maintenance according to regulations. As part of the experimental aviation world, the ideal candidate will be able to understand safety of flight issues and correct items that are not directives from a maintenance manual or safety bulletin. This employee will most likely spend part of their time working with our final assembly crew especially for the first few months of tenure.

Your Day-to-Day:

- Maintain, repair, and troubleshoot aircraft airframe and engine
- Troubleshoot and determine malfunctioning parts
- Recommend part changes or adjustments to aircraft specifications
- Document and maintain paperwork for maintenance
- Other duties as assigned or required
- Normal operating hours are Monday to Friday 7:30-4:00. Overtime and occasional travel may be necessary.

What You Bring to the Team:

- High school diploma and an FAA Airframe and Powerplant license
- 3+ Years Working in the Industry
- Able to work autonomously
- Good problem solving skills and the ability to work well with a team
- Able to follow written and verbal instructions and fill out paperwork as needed
- Experience with Pratt and Whitney turbo prop engines, composite materials, and aircraft and engine inspection is a plus
- Physically able to lift up to 100 lbs
- Physically able to bend, twist, and fit in tight and/or uncomfortable places
